

PoE injector Model POE-248

48V/0.5A POE Power Supply Injector Ethernet Adapter PoE Wall Plug Injector for IP Voip Phones, Cameras and More(US Plug)

Easy to install the adapters in areas where the space is limited
Can be installed in seconds with no configuration required

- Safety: Short circuit, over current, over voltage protection, in line with IEEE802.3 .
- Power supply and data transmission stability: IC chip control, power supply stability, 1A/0.5A POE output current and autoranging switching power 100 ~ 240 V AC, stable power supply and reliable data transmission, to provide the highest saturation and maximum energy.
- Materials: Made of plastic and ABS material, it is durable and made of non-slip eco-friendly material. It is comfortable to use. Small and portable size, convenient wall connector design.
- Easy operation: Easy to install the adapters in areas where the space is limited, and can be installed in seconds with no configuration required. Just connect them to power network devices directly in a few seconds. It can be used to power PoE bluetooth devices like ip cameras or wireless access points (WAPs).

Technical Details

Manufacturer: Sonew

Model number: POE-248 or POE-48005

Place of Business: Shenzhen, Guangdong 518000, CN

Part Number: Sonew6mig8xn7gk-01

Item dimensions: 8 x 4.5 x 5.5 cm; 80 Grams

Power Connection: US Plug

Voltage: 100-240 Volts in, 48 Volts out

Data link protocol: IEEE 802.3, Ethernet
